

All required utilities like electric, gas & water must be put into the Lessee's name by the Lease Start Date. Additionally, these services must not be shut-off or disconnected at any time during your Lease Term. Utilities must stay on until the Lease End Date. Failure to comply is considered a material breach of your Lease Agreement and each occurrence will result in a \$50 Utility Administrative Fee (per bill paid on your behalf).

**Your utility services WILL BE OFF when your lease starts. Don't forget!**

You must call and schedule your turn-on date at least two to four (2-4) weeks in advance. Your turn-on date is your Lease Start Date NOT your move-in date. In some cases, you may be able to activate your service on-line by using the provider's web site.

**IMPORTANT UTILITY INFORMATION FOR INTERNATIONAL RESIDENTS:**

If you are an international student, and have not had utility service from these companies on in your name before, it is likely that you will be required to submit an IDENTITY VERIFICATION form.

Each utility company will require a separate IDENTITY VERIFICATION form to be submitted. Your IDENTITY VERIFICATION cannot be done over the phone or by e-mail. Their form must be submitted by FAX or MAIL.

Crestview strongly recommends that you contact each of the utility companies directly and submit the IDENTITY VERIFICATION form well in advance of your Lease Start Date.
