

All required utilities like electric, gas & water must be put into the Lessee’s name by the Lease Start Date. Additionally, these services must not be shut-off or disconnected at any time during your Lease Term. Utilities must stay on until the Lease End Date. Failure to comply is considered a material breach of your Lease Agreement and each occurrence will result in a *Utility Administrative Fee*.

Your utility services WILL NOT be set up when your lease starts. Don’t forget!

Complex	Electric	Natural Gas	Water & Sewage
